**G7 Master Submission Test Forms: Read-Me**

**Important notes regarding the 2015 program enhancements:**

1. The P2P25x can be read by all devices with the exception of the iSis 2. Isis 2 users, see Beta Forms.
2. Use either P2P25 or beta P2P51 test forms. (Other gray forms can be used subject to agreement by Idealliance).
3. Only supplied IT8.7-4 Test form may be used. The IT8 charts are marked with the current Idealliance logo.
4. The test form submitted can be modified but contain the date-correct QR code, available in the G7 Master Submission Kit.
5. You may modify or create your own test form provided the form contains a P2P25 or P2P51, IT8.7-4 marked with Idealliance logo and a date-correct QR code.

Current Idealliance test forms and elements can be downloaded [HERE](#).

**Standard Test forms:**

The Standard Test Form Folder contains the following:

- Test charts and workflows
  - a) P2P25 test charts are formatted for use with i1Pro, i1Pro2, i1 IO, and iSis devices
  - b) IT8.7-4 test charts in formats for both i1 IO, iSis, and iSis 2 devices.
  - c) Workflows for use in i1Profiler, using Measure Reference.

Forms are included in InDesign, IDML, and PDF formats
- a) G7 Forms for the iSis in 11 x 17, 19 x 25, and 28 x 40 sizes.
- b) G7 Forms for the IO in 28 x 40 sizes
- c) A G7 form with only a P2P in 11 x 17 size

Note: The P2P25x can be read by all devices with the exception of the iSis 2.

**The Beta Test Forms**

The Beta Test Forms folder contains forms created with a beta version of the P2P51:

- Test charts and workflows:
  - a) P2P25 test charts formatted for use with i1Pro, i1Pro2, i1 IO, and iSis devices
  - b) P2P51 beta test chart formatted for use with i1Pro, i1Pro2, i1 IO, iSis, and iSis 2 devices
  - c) IT8.7-4 test charts in formats for both i1 IO, iSis, and iSis 2 devices.
  - d) Workflows for use in i1Profiler, using Measure Reference, with the exception of the P2P51 which currently must be measured using a supplied profiling workflow.

Forms are included in InDesign, IDML, and PDF formats
- a) G7 Forms for the iSis and iSis2 in 11 x 17, 19 x 25, and 28 x 40 sizes.
- b) G7 Forms for the IO in 28 x 40 sizes
- c) A G7 form with only a P2P51 in 11 x 17 size

The beta test form is for test purposes and will be changing in the future.

*Use all of the test forms at your own risk, and make sure to try them with a proofer or other device before using on live test run. Idealliance is not responsible for issues or problems with the above test forms. Please note the beta forms are not complete, but are provided for those who may require for use with new devices such as the iSis 2 that do not support the P2P25x.*
