A CANON COMPANY

Océ VarioPrint i-series Inkjet Color Digital Press

Note: Certification is in accordance with Idealliance Digital Press Certification Program v2.3.6

The Idealliance Print Properties Digital Print Working Group has established a certification process for digital production presses (xerographic/inkjet). The following information is intended to assist printers and customers in understanding the printing conditions and how they were achieved and/or to replicate these results on a similar system.

I. Manufacturer

Océ Technologies B.V.

Sint Urbanusweg 43

5914 CA Venlo

The Netherlands

II. Product Name

Océ VarioPrint i-series / Océ PRISMAsync v2.1.2 / Sappi Flo Digital Dull Text 100# 148 gsm.

III. Overview

Océ VarioPrint i-series gives customers a choice in models, i300 or i200 Inkjet Color digital Presses.

Combining the reduced costs of inkjet with the media and application flexibility of sheet-fed production, the Océ VarioPrint i-series inkjet color digital press provides an advantageous proposition to print providers who are looking to grow their business by:
- Cost effectively running monochrome and color print jobs on one engine
- Moving mono applications to higher-value/higher-margin color products
- Extending the cross over point for digital print versus offset, helping more pages migrate to digital print
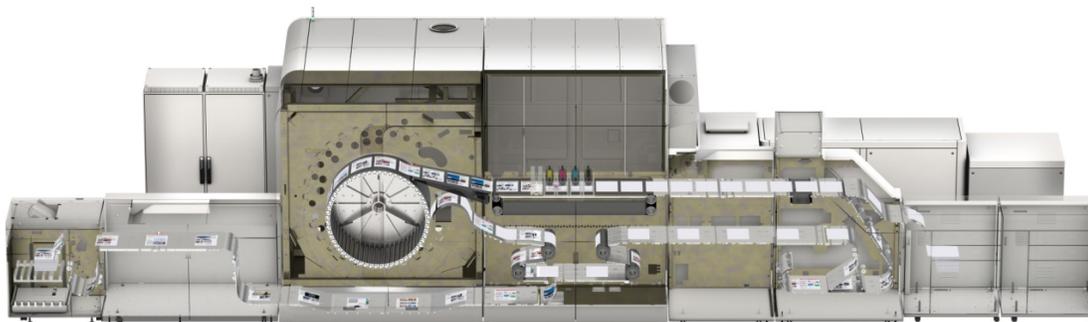

IV. System Components and Printing Procedure

Océ VarioPrint i300 digital Press

Océ PRISMAsync v2.1.2 controller

Ink Version 3 (IV3) ink set and ColorGrip applied

Printed in specialty speed with 600x600 dpi multilevel (1200 dpi perceived)

Sappi Flo Digital Dull Text 100# 148 gsm offset coated paper stock
